

suggestion that a request on this point should be made to Fellows and Members in the columns of the EUGENICS REVIEW.

Needless to say I should be delighted to follow up any introductions obtained in this way. I am most anxious to get in touch with new organizations and new provincial areas.

### **Abortion Laws**

*To the Editor, Eugenics Review*

SIR,—In view of the astonishing nature of certain

of the recommendations contained in the newly published Government Report on Abortion, and of the general reluctance on the part of British officials to attach due weight to, or to publish more than an inadequate summary of, the laws and experience of the smaller and generally more progressive countries in matters of this kind, I would urge you to give your readers the unabridged translation of the new Swedish law on abortion, promised in the January issue, without further delay.

MAX J. GREGORY.

Oakley Cottage,  
Goudhurst, Kent.

\* \* \* The full text of the Swedish law is published on pp. 109-10.
